BLAST FROM BOOSTER PAST

President's Message

Many years ago when my family became involved with the handicapped system, I can recall an individual making a statement that has stuck with me for all these years. "We must never forget the reason for being a Booster." That reason, she went on to explain, was "to support the H.D.C. client." Over the years this fine Booster Organization has done an excellent job of doing just that, thanks to all those dedicated members of those continuum of days.

Our challenge today is even greater; times do change and with change comes uncertainty. The question I would like to ask our members is this; are we doing our very best for the clients we advocate for? Can we do more with the resources we have?

Sincerely,

Bob Ott
